

# The Broad Summer Scholars Program

The Broad Institute, a world-renowned pioneer in genomics and other exciting new approaches in genomic medicine, invites a small number of exceptional and mature students with a keen interest in science to spend six weeks at the institute, working side-by-side with scientists in the lab on cutting-edge research.

## Program highlights

- Perform original research
- Attend scientific lectures
- Meet others who share your passion for science
- Present research to the Broad community

## 2015 Program dates

June 27, 2016 – August 5, 2016

## Eligibility

Rising seniors who live within commuting distance to the Broad Institute may apply. BSSP is nonresidential.

## Application deadline

January 29, 2016

## To download an application
